Essential Health Advisory

The Kailash Mansarovar Yatra via various routes is one of the world's most demanding high-altitude road journeys. Successfully completing it requires excellent physical fitness and resilience.

Critical Health Considerations:

1. **Pre-Existing Conditions:** Individuals with asthma, heart conditions (including angina, history of heart attack, or heart failure), chronic lung diseases (like COPD), or severe hypertension face significant risks at high altitudes. Altitude can severely exacerbate these conditions.
2. **Mandatory Medical Clearance:** We strongly advise ALL participants, regardless of age or apparent fitness, to undergo a thorough medical examination specifically for high-altitude travel. This is especially crucial if you have any pre-existing medical condition.
    - **Discuss:** Your specific itinerary, altitudes reached (including the 19,500 ft / 5,900 m Dolma La Pass during the Parikrama), extreme cold, dust exposure, rough "no-road" terrain, and sustained physical exertion over days.
    - **Obtain Clearance:** Explicitly ask your doctor: "Am I medically fit for this specific journey, considering the extreme altitude, physical demands, and environmental challenges?"
3. **The Challenges You Will Face**:
    - **Extreme Altitude:** Prolonged exposure to altitudes above 15,000 ft (4,500 m), with significant ascents.
    - **Rigorous Terrain:** Travel over rough, often unpaved roads ("no-road" conditions), requiring endurance. Physical Demands: Sustained trekking and walking, including the challenging Parikrama (circumambulation) crossing the high pass.
    - **Harsh Environment:** Exposure to extreme cold, wind, dust, and potentially variable weather. Remote Location: Limited immediate access to advanced medical facilities.
    - **Honesty is Vital:** This journey is not advised for those with significant health concerns or who are not in robust physical condition. Your safety, the safety of the group, and the feasibility of the journey depend on everyone being adequately prepared.

Altitude Sickness

Traveling through high-altitude terrain means you may experience symptoms of altitude sickness (Acute Mountain Sickness - AMS) as your body adjusts. Common symptoms include:

- Headache
- Loss of appetite
- Nausea
- Fatigue/Exhaustion
- Sleeplessness
- Breathlessness

Acclimatization typically takes several days and varies by individual. Therefore, a **mandatory acclimatization day** is required before ascending higher. This vital stop significantly aids your body's adjustment.

Essential Altitude Precautions:

- **Hydrate:** Drink plenty of water consistently.
- **Pace and Rest:** Move slowly, stay calm, and practice deep breathing exercises.
- Avoid: Do not consume alcohol or smoke before or during the tour.
- **Consider Diamox:** We recommend carrying a course of **Diamox (Acetazolamide)** tablets as a preventative measure.

Crucially:

- Consult your physician before travel regarding suitability, dosage, and potential side effects.
- Discuss using Diamox with our experienced guide during the trip.

Your safety and well-being are our top priority. This acclimatization protocol is designed for a safer and more comfortable journey.

Kailash Parikrama

If a pilgrim is unable to complete the full parikrama due to physical, environmental, or health-related reasons, the following are the procedures based on the point at which the journey is halted and, based on that, include the extra cost:

By foot

Condition I

If the pilgrim has started the parikrama from Yamadwar but is unable to reach Derapuk and needs to return from midway due to physical inability or any other reason:

Additional Cost:

- **Emergency return transportation:**
  Sharing basis: 500 Yuan
  Private arrangement: 2000 Yuan
- **Accommodation cost at Darchen (return base point)**

Condition II

If he/she has successfully reached Derapuk and is unable to proceed with the parikrama the preceding morning due to deterioration of health or altitude sickness:

Additional Cost:

- **Emergency return transportation:**
  Sharing basis: 500 Yuan
  Private arrangement: 2000 Yuan
- **Accommodation cost at Darchen (return base point)**

Condition III

If a pilgrim manages to cross high-altitude Dolma La Pass but becomes unable to continue physically descending or trekking further.

Additional Cost

- **Emergency return transportation:**
  Sharing basis: 2000 Yuan
  Private arrangement: 8000 Yuan
- **Accommodation cost at Darchen (return base point)**

By Horse/Pony

The following guidelines should be carefully considered by any pilgrim who would like to make arrangements for parikrama with horses.

- Once the horse/yak is confirmed and paid for, the booking shall be non-refundable irrespective of non-usage or early return.
- The horse/yak assigned to the booking shall be non-transferable and shall only be used by and for the person for whom it was originally booked.
- All pilgrims must walk for at least 3 kilometers while descending from Dolma La Pass, either with or without horses, as the terrain is dangerous and steep. This part cannot be done by horse for reasons of safety.
- While booking a horse, it comes with a porter, and the porter can carry only 3 to 4 kg of personal belongings in the highest sense. The pilgrims have to carry the basic things on their own.
- Horse services are available only for a single trip, that is, a one way journey from Yamadwar to Darchen. The same horse can't return if pilgrims wish to return midway.

Currency in Tibet

- **Official Currency:** The currency used in Tibet (China) is the Chinese Yuan (CNY), also abbreviated as RMB (Renminbi).

- **Approximate Exchange Rates (for reference):** USD 1 = ~7.00 CNY (Subject to change) 1 CNY = ~12.60 INR (Subject to change) Rates fluctuate; check closer to your departure.
- **Primary Exchange Location:** The most convenient place to exchange USD cash (recommended) or other major currencies for Yuan is at Kathmandu or at the Nepal-Tibet border crossing (Kyirong), upon entering Tibet.
- **Re-Exchanging Yuan:** At the end of your tour, before re-entering Nepal through the Kyirong border, you can re-exchange any unused Yuan notes back to USD or Nepali Rupees (NPR). Keep your original exchange receipt if possible, as it may be required.

Payment Tips:

1. **USD Cash (New, Unmarked Bills):** Bring sufficient USD cash (in smaller denominations like $20s, $50s, and $100s) for exchange. Older or marked bills may be rejected.
2. **Limited Card Use:** Credit/debit cards are rarely accepted outside major Lhasa hotels. Rely primarily on cash.
3. **Small Bills:** Once exchanged, try to get some smaller Yuan denominations (5, 10, 20) for everyday purchases, tips, and entrance fees.

Communication in Tibet

For reliable communication and data access in Tibet, we highly recommend purchasing a travel eSIM before your trip. This is the most convenient solution, as regular international roaming can be expensive and unreliable.

1. **Purchase BEFORE Entry:** Crucially, you must download, install, and activate your eSIM BEFORE crossing the border into Tibet (China). Access to app stores (Google Play, Apple App Store) and many eSIM provider websites is restricted within China.
2. **Coverage and Provider:** The primary (and often only) network operator in remote Tibetan areas is China Mobile. Ensure your chosen eSIM explicitly supports China Mobile for reliable coverage during your yatra.

3. **Example Plan:** A typical plan offering ~20GB of data valid for 30 days costs approximately $20-$30 USD. This is generally sufficient for navigation, messaging, and basic internet use during the trip.
4. **Where to Buy (Reputable eSIM Providers):** Airalo (Highly popular, user-friendly) Holafly, Nomad, and Klook, Compare prices and specific China Mobile coverage on these platforms.
5. **Regular Roaming:** Check with your home mobile provider about travel packs, but be aware costs are usually much higher than an eSIM, and coverage in remote areas may be poor.
6. **Physical SIM Alternative:** You can buy a local China Mobile SIM at the border (Kyirong), but this requires passport registration, takes more time, and availability isn't guaranteed. An eSIM prepared in advance is faster and easier.
7. **VPN is Essential:** Remember, access to Google services (Gmail, Maps, Search), WhatsApp, Facebook, Instagram, YouTube, and many international news sites is blocked in China. You MUST install a reputable VPN (like ExpressVPN, NordVPN, Astrill, Top VPN) on your phone BEFORE entering Tibet to access these services. Activate it after crossing the border.
8. **Wi-Fi Limitations:** Hotel Wi-Fi in cities like Lhasa is often available but slow and also subject to internet restrictions (requiring your VPN). Don't rely on consistent Wi-Fi, especially at higher altitudes or in remote areas.

Pro Tip: Set up your eSIM and VPN completely BEFORE you cross the border for seamless connectivity upon arrival in Tibet.
